9219 MARQUINA TIERRA

2218 AURICA

ⓘ It is inevitable to have some difference between real products and product images. Belenco is not responsible for imperfections that may be caused by printing.

Belenco Prestige series, which we have turned into the most healthy designs with unique accumulation from quartz, the hardest mineral stones in nature, will be an indispensable luxury for the living spaces you will decorate.

5219 STATUARIO CRUX

4242 STATUARIO VOLGA

8210 STATUARIO VENETIAN

ⓘ It is inevitable to have some difference between real products and product images. Belenco is not responsible for imperfections that may be caused by printing.

Art of Mirror Effect: Bookmatching

“Bookmatching” is the use of mirror effect slabs symmetrically arranged in different horizontal or vertical layouts, reminiscent of an open book with pages facing each other. The stunning designs that emerge with this application bring a natural harmony to the spaces and add a touch of art to them.

Moreover, it provides the feeling of depth in the area and enables a wider and more spacious environment.

2219 CALACATTA VENEZIA BM

2229 CALACATTA VENUS BM

1219 CALACATTA VICTORY BM

1189 CALACATTA GARDA BM

EXTRA SLAB
310 x 152 cm.

Different Slab Size Options

- 15 mm
- 20 mm
- 30 mm

Slab sizes that allow large and seamless designs.

Correct Edge Profile Application

The workmanship and application of front edge profiles on countertops and benches are carried out by authorized workshops. The types of edge profiles applied may vary depending on the workshop's machine and equipment park. Therefore, it is recommended to discuss and reach an agreement with the workshop that will perform the application beforehand.

① Belenco preserves the right to change color, technical specifications and dimensions of the products without any prior notice. Stone images provided in the leaflet reflect a part of our slabs. They may not represent the design characteristics of the actual slab. Before purchasing, viewing the whole slab for color, distribution and vein patterns is recommended.

The choice of all professionals who want to do valuable work...

Belenco Prestige collection carries the justified pride and beauty of being one of the most prominent series that reflects Belenco quality and grandeur. The fact that quartz, which is the unique beauty of nature, can be processed with the latest technology and the best patterns come to life with the most creative techniques makes this series even more meaningful.

We are pleased to be the creator of the value Belenco Prestige will add to living spaces.

The most accurate information for the right choice

Always hygienic

Belenco surfaces are hygienic due to their liquid-absorbent, non-porous, compact structure that does not retain stains and does not allow microorganisms to reproduce within itself. Belenco's hygienic structure has been certified by NSF with the NSF51 certificate, indicating that food can be safely prepared on its surface. You do not need to apply any special chemicals to ensure hygiene.

Stain Proof

FBelenco, produced using the most advanced technology in the world and containing over 90% natural quartz mineral, binder, and inorganic pigment in its formula, is a non-porous surface resistant to calcification. Tea, coffee, vinegar, lemon, and other countertop materials that can cause permanent stains or surface wear do not affect Belenco.

Easy to maintain

Blt shines like the first day with a simple daily cleaning! A damp, cotton cloth and a small amount of mild neutral liquid soap (glass surface cleaner or dishwashing liquid) is sufficient for daily cleaning. If you wipe off the residues that drip or stain the surface before they dry and turn into permanent lime, you can maintain the pristine appearance of your surface for many years with a simple cleaning.
